Chemistry and Chemical Biology: Methodologies and Applications (AAP Research Notes on Chemistry)

Chemistry and Chemical Biology: Methodologies and Applications (AAP Research Notes on Chemistry)

This important volume highlights the latest developments and trends in chemistry, biochemistry, and biology. It presents the developments of advanced materials and respective tools to characterize and predict the material properties and behavior. The book provides original, theoretical, and important experimental results that use non-routine methodologies often unfamiliar to the usual readers. The papers on novel applications of more familiar experimental techniques and analyses of chemical, biochemistry, and biological programs indicate the need for new experimental approaches.
