Michael Brown

A Queer Thing Happened To America: And what a long, strange trip it's been Michael Brown
Forty years ago, most Americans said they didn't know anyone who was homosexual and claimed to know little or nothing about homosexuality. Today, there's hardly a sitcom without a prominent gay character, movies like Milk and Brokeback Mountain have won Oscars, and even People magazine celebrated the marriage of Ellen Degeneres and Portia DeRossi. A Queer Thing Happened to America chronicles the amazing transformation of America over the last forty years, and addresses the question head-on: Is there really a gay agenda, or is it a fiction of the religious right? Written in a lively and compelling style, but backed with massive research and extensive interaction with the GLBT community, this forthright and yet compassionate book looks at the extraordinary impact gay activism has had on American society. This could easily be the most controversial book of the decade. Read it and find out why the publishing world was afraid to touch it.
