Francesco Cesarini, Giorgio Gobbi

Finanza e credito in Italia (Farsi un'idea) (Italian Edition) Francesco Cesarini, Giorgio Gobbi

Il sistema finanziario assolve compiti fondamentali per il funzionamento delle moderne economie: fornisce l'infrastruttura del sistema dei pagamenti e trasferisce le risorse da chi risparmia - le famiglie - a chi investe - le imprese e le amministrazioni pubbliche. Il volume è una guida introduttiva alle principali caratteristiche della finanza in Italia, con particolare attenzione ai meccanismi del credito: analizza le decisioni finanziarie di famiglie e di imprese, la centralità del ruolo delle banche e infine le norme volte a tutelare la stabilità del sistema e la correttezza dei comportamenti degli intermediari, anche con indicazioni che consentono di interpretare le recenti e complicate vicende dei mercati finanziari.
