ANALYSIS AND DESIGN PRACTICE OF STEEL STRUCTURES

KARUNA MOY GHOSH

ANALYSIS AND DESIGN PRACTICE OF STEEL STRUCTURES KARUNA MOY GHOSH

This book is a comprehensive presentation of the fundamental aspects of analysis and design of steel structures. It is primarily meant for the undergraduate students of civil engineering and postgraduate students of structural engineering. It will also be immensely useful for structural engineers engaged in design, consultancy and construction involving steel structures.

The important theoretical and practical concepts which need to be assimilated prior to undertaking analysis and design—general principles and practices, functional aspects of structures, basic design concepts, alternative arrangements of equipment and service, clarity of structural behaviour, and calculations of loadings on structures—are covered in the first two chapters. The ensuing chapters provide stepwise presentation of the analysis and design procedures for various steel structures and structural elements/members on the basis of Eurocodes and British (BS) codes of practice. The three types of structures specifically covered, on the basis of functional aspects, are scrap yard structures, conveyor structural systems, and turbo-generator buildings.

In the **Second Edition**, analysis and design of steel structures have been carried out based on Indian Standard code of practice IS 800:2007. Every component of the structure comprising the beams and columns is designed in compliance with the code IS 800:2007. A comparison has been made between the results of the steel structures analysed and designed in compliance with EC3: Part 1-1 and those obtained in accordance with Indian Standard code of practice IS 800:2007.

The book discusses the various structural analyses and design calculations in an exhaustive manner. The text is illustrated with an abundant number of visuals. Important sources of information relevant to steel structures can be found in the references at the end of various chapters.

Audience

Undergraduate students of civil engineering and postgraduate students of structural engineering.

From reader reviews:

Donald Hamann:

A lot of people always spent their own free time to vacation or maybe go to the outside with them household or their friend. Are you aware? Many a lot of people spent they free time just watching TV, or playing video games all day long. In order to try to find a new activity honestly, that is look different you can read the book. It is really fun for you. If you enjoy the book that you simply read you can spent all day long to reading a e-book. The book ANALYSIS AND DESIGN PRACTICE OF STEEL STRUCTURES it is very good to read. There are a lot of individuals who recommended this book. These were enjoying reading this book. Should you did not have enough space bringing this book you can buy often the e-book. You can m0ore quickly to read this book out of your smart phone. The price is not too costly but this book has high quality.

Curtis Graham:

Do you have something that you want such as book? The book lovers usually prefer to opt for book like comic, small story and the biggest an example may be novel. Now, why not trying ANALYSIS AND DESIGN PRACTICE OF STEEL STRUCTURES that give your pleasure preference will be satisfied by simply reading this book. Reading practice all over the world can be said as the opportunity for people to know world considerably better then how they react in the direction of the world. It can't be said constantly that reading routine only for the geeky person but for all of you who wants to be success person. So , for all of you who want to start studying as your good habit, you could pick ANALYSIS AND DESIGN PRACTICE OF STEEL STRUCTURES become your own personal starter.

David Mathews:

This ANALYSIS AND DESIGN PRACTICE OF STEEL STRUCTURES is brand new way for you who has interest to look for some information since it relief your hunger details. Getting deeper you in it getting knowledge more you know or you who still having little bit of digest in reading this ANALYSIS AND DESIGN PRACTICE OF STEEL STRUCTURES can be the light food for you personally because the information inside this specific book is easy to get by means of anyone. These books build itself in the form which can be reachable by anyone, yes I mean in the e-book web form. People who think that in reserve form make them feel tired even dizzy this publication is the answer. So you cannot find any in reading a reserve especially this one. You can find what you are looking for. It should be here for an individual. So , don't miss it! Just read this e-book style for your better life as well as knowledge.

Nancy Stever:

Reading a book make you to get more knowledge from that. You can take knowledge and information from your book. Book is created or printed or descriptive from each source that filled update of news. With this modern era like now, many ways to get information are available for you actually. From media social such as

newspaper, magazines, science reserve, encyclopedia, reference book, new and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to open your book? Or just looking for the ANALYSIS AND DESIGN PRACTICE OF STEEL STRUCTURES when you necessary it?
