The Gospel of Thomas (New Testament Readings) Richard Valantasis

This volume offers the first full commentary on the Gospel of Thomas, a work which has previously been accessible only to theologians and scholars. Valantasis provides fresh translations of the Coptic and Greek text, with an illuminating commentary, examining the text line by line. He includes a general introduction outlining the debates of previous scholars and situating the Gospel in its historical and theological contexts. *The Gospel of Thomas* provides an insight into a previously inaccessible text and presents Thomas' gospel as an integral part of the canon of Biblical writings, which can inform us further about the literature of the Judeo-Christian tradition and early Christianity.
