Structure and Function in Agroecosystem Design and Management (Advances in Agroecology)

Structure and Function in Agroecosystem Design and Management (Advances in Agroecology)

Structure and Function in Agroecosystem Design and Management presents an advanced discussion of the need to design agricultural systems that 1) increase reliance on biological interactions in agroecosystems as a means of decreasing dependence on the use of large quantities of agrochemicals and the consumption of fossil fuel energy and 2) continue to produce optimal crop yields. Written by international experts, this book discusses biological interactions, matter circulation, and disturbance operating within the agroecosystems in question.

The book covers matter cycling and focuses on reducing practices that require the consumption of large quantities of agrochemicals and fossil fuels. The editors then explore the effects of environmental changes and how they will change the management of the next generation of agroecosystems.

Is it possible to replace current technologies based on fossil energy with proper interactions operating between crops, livestock, and other organisms to enhance production? If the answer is yes, then modern agriculture can be transformed into an integrated system in which the use of complex biotic interactions is the key technology. Structure and Function in Agroecosystem Design and Management focuses on how can work when designed according to sound ecological practices, and provides the foundation to manage them in an ecologically efficient manner.

From reader reviews:

Sabrina King:

Structure and Function in Agroecosystem Design and Management (Advances in Agroecology) can be one of your basic books that are good idea. We all recommend that straight away because this reserve has good vocabulary that could increase your knowledge in terminology, easy to understand, bit entertaining but nevertheless delivering the information. The copy writer giving his/her effort to put every word into satisfaction arrangement in writing Structure and Function in Agroecosystem Design and Management (Advances in Agroecology) but doesn't forget the main place, giving the reader the hottest along with based confirm resource data that maybe you can be one among it. This great information can drawn you into brand new stage of crucial thinking.

Sara Matthews:

Do you one of the book lovers? If so, do you ever feeling doubt while you are in the book store? Aim to pick one book that you just dont know the inside because don't assess book by its include may doesn't work is difficult job because you are scared that the inside maybe not since fantastic as in the outside seem likes. Maybe you answer may be Structure and Function in Agroecosystem Design and Management (Advances in Agroecology) why because the fantastic cover that make you consider regarding the content will not disappoint you actually. The inside or content will be fantastic as the outside or even cover. Your reading sixth sense will directly make suggestions to pick up this book.

Diana Gum:

Are you kind of hectic person, only have 10 as well as 15 minute in your moment to upgrading your mind proficiency or thinking skill even analytical thinking? Then you have problem with the book when compared with can satisfy your short period of time to read it because all of this time you only find guide that need more time to be examine. Structure and Function in Agroecosystem Design and Management (Advances in Agroecology) can be your answer because it can be read by anyone who have those short extra time problems.

Susan Bannister:

Book is one of source of knowledge. We can add our knowledge from it. Not only for students but also native or citizen will need book to know the up-date information of year to year. As we know those ebooks have many advantages. Beside we add our knowledge, could also bring us to around the world. Through the book Structure and Function in Agroecosystem Design and Management (Advances in Agroecology) we can consider more advantage. Don't that you be creative people? To get creative person must choose to read a book. Just simply choose the best book that acceptable with your aim. Don't always be doubt to change your life at this book Structure and Function in Agroecosystem Design and Management (Advances in Agroecology). You can more appealing than now.
