Concentrate Management in Desalination: Case Studies Conrad G. Keyes Jr., Michael P. Fahy, Berrin Tansel

Concentrate Management in Desalination: Case Studies reviews the state-of-the-practice for managing concentrate streams resulting from desalination processes. Concentrate management and disposal in desalination pose environmental and cost concerns and often determine whether a desalination project is viable, especially for inland communities. This report examines many facets of concentrate management in desalination, including process design and configuration, regulatory setting, environmental issues, and economic evaluation of projects. Twelve case studies are offered to demonstrate different techniques for disposing of concentrates associated with the following types of projects: zero liquid discharge (ZLD) and near-ZLD disposal; discharge to oceans and bays; deep-well injection, land application, and evaporation ponds; and discharge to sanitary sewers or surface waters. Environmental engineers and managers responsible for the design, operation, research, and evaluation of regional desalination and water reuse facilities will find a wealth of practical information in this report.

From reader reviews:

Elizabeth Hart:

Playing with family within a park, coming to see the coastal world or hanging out with friends is thing that usually you will have done when you have spare time, and then why you don't try issue that really opposite from that. Just one activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love Concentrate Management in Desalination: Case Studies, it is possible to enjoy both. It is very good combination right, you still need to miss it? What kind of hang type is it? Oh can occur its mind hangout fellas. What? Still don't have it, oh come on its identified as reading friends.

Emma Anderson:

Reading a book being new life style in this 12 months; every people loves to study a book. When you read a book you can get a large amount of benefit. When you read guides, you can improve your knowledge, due to the fact book has a lot of information on it. The information that you will get depend on what kinds of book that you have read. If you want to get information about your review, you can read education books, but if you act like you want to entertain yourself read a fiction books, this sort of us novel, comics, as well as soon. The Concentrate Management in Desalination: Case Studies provide you with a new experience in reading a book.

Martha Fincher:

As we know that book is very important thing to add our understanding for everything. By a reserve we can know everything we want. A book is a list of written, printed, illustrated or even blank sheet. Every year ended up being exactly added. This guide Concentrate Management in Desalination: Case Studies was filled about science. Spend your free time to add your knowledge about your scientific disciplines competence. Some people has various feel when they reading any book. If you know how big benefit from a book, you can experience enjoy to read a reserve. In the modern era like right now, many ways to get book that you just wanted.

Robin Bone:

As a student exactly feel bored in order to reading. If their teacher questioned them to go to the library as well as to make summary for some publication, they are complained. Just tiny students that has reading's heart and soul or real their hobby. They just do what the educator want, like asked to the library. They go to presently there but nothing reading really. Any students feel that reading is not important, boring as well as can't see colorful photos on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this Concentrate Management in Desalination: Case Studies can make you feel more interested to read.
