Carl Schmitt

The Concept of the Political: Expanded Edition Carl Schmitt

In this, his most influential work, legal theorist and political philosopher Carl Schmitt argues that liberalism's basis in individual rights cannot provide a reasonable justification for sacrificing oneself for the state—a critique as cogent today as when it first appeared. George Schwab's introduction to his translation of the 1932 German edition highlights Schmitt's intellectual journey through the turbulent period of German history leading to the Hitlerian one-party state. In addition to analysis by Leo Strauss and a foreword by Tracy B. Strong placing Schmitt's work into contemporary context, this expanded edition also includes a translation of Schmitt's 1929 lecture "The Age of Neutralizations and Depoliticizations," which the author himself added to the 1932 edition of the book. An essential update on a modern classic, *The Concept of the Political, Expanded Edition* belongs on the bookshelf of anyone interested in political theory or philosophy.
